SECONDARY LIGHTS FOR MOTOR VEHICLES

1. DESCRIPTION OF SAMPLE

The sample consisted of an LED direction -indicator light equipped with an array of LED's. The light consisted of a black plastic housing approximately 105 mm in diameter and 20 mm deep. The circuitry was mounted inside the housing. The front opening was permanently covered with an amber lens. Flying leads were provided for the connection to the supply.

The lens was marked as follows: " TOP SANS 1376-3
2α"

The housing was marked as follows: " WHITE = -Ve SOLID= +Ve
STRPE= =+Ve Function 12V-24V".

See page 3 for the photographs of the sample.

2. TESTS REQUESTED

The testing of a LED direction -indicator light for compliance with the requirements of standard SANS 1376-3:2006, 'Lights for motor vehicles', Part 3 'Secondary lights' as referenced to in VC 8050.

3. CONCLUSION

The LED direction-indicator light complied with the requirements of standard SANS 1376-3:2006, 'Lights for motor vehicles', Part 3 'Secondary lights' as referenced to in VC 8050. See Table 1.

SANAS Accredited Testing Laboratory No. T0085

The acceptance of an item for test and the issue of a test report are subjected to the SABS's CONDITIONS OF TEST*, from which the following have been extracted:

1. If published or reproduced by the client, a test report shall be reproduced in full, i.e. the reproduction shall contain the printed as well as the typed parts of the report, nothing excepted. In special circumstances an abridged form of the report or certain parts of the report may be published or reproduced, provided that the abridged form or partial version of the report is approved in writing by the President and CEO of the SABS before publication or issue.
2. A test report relates only to an item submitted for the actual test. It furnishes or implies no guarantee whatsoever in respect of a similar item that has not been tested.
3. The performance of a test and the issue of a test report do not imply approval by the SABS of the quality and/or performance of the item that has been tested. This does not authorize the use of a certification mark.

NOTE - An unlawful statement implying that an item has been approved by the SABS constitutes a punishable offence in terms of the Standards Act.

4. While every endeavour will be made to ensure that a test is representative and accurately performed, and that a report is accurate in the quoted results and conclusions drawn from the test, the SABS or its officers shall in no way be liable for any error made in carrying out the test or for any erroneous statement, whether in fact or in opinion, contained in a report issued pursuant to a test.

*Obtainable upon request from the Chief Executive Officer, SABS, Private Bag X191, Pretoria, 0001.

4. TEST METHOD

The tests were conducted in accordance with the methods described in section 5 of SANS 1376-Part 3.

5. SAMPLE SUBMITTED

The sample received in a condition suitable for testing.

Date sample received : 28-09-2010
 Starting date of test : 11-10-2010
 Completion date of test : 04-11-2010

6. TEST RESULTS

The results of the tests are given in Table 1.

TABLE 1 — SECONDARY LIGHT

PROPERTY	CLAUSE	RESULTS
